

Veberod Gem Gallery

Bangles II – Stamped Silver Bangle with Stones

Turn a heavy piece of Sterling Silver wire into jewelry with a message, adorned with small cabochons. Learn how to lay out a stamped phrase and more about soldering LARGE pieces of metal. We might even get a chance to learn how to fix stamping mistakes! Makes a great gift.

Prerequisite: Silversmithing II

Please plan to provide all your own consumables. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring any magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Supplies Required

Silver wire, 1x4 or 2x5
Hard/Med/Easy Solder
Saw blades
Torch Fuel
Boric Acid Flux
Batterns Flux
Flux bottle

*Solder Pick
Torch
*Soldering Surface
*Soldering Tweezers
*Third Hand
*Chain Nose Pliers
Mitre Cutting Jig
Files
Chasing Hammer or Brass Hammer
Design/Alphabet Stamps
Magnification
3M Polishing Paper

Notes on tools/supplies

This list is designed to help you determine what to bring from home. Please DO NOT buy anything before class if you don't already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don't stress about what you don't.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
