

Veberod Gem Gallery

Crocheted Bracelet

You don't need to know how to crochet to learn how to make this whimsical, highly adaptable, downright FUN bracelet/necklace. You just need to show up and pick out bead combinations you like and we will get you going. These make GREAT gifts because they are one-size-fit-just-about-darned-near-everyone!

Prerequisite: none!

Please plan to provide all your own consumables. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring any portable lighting and magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Please note: It is absolutely to your advantage to purchase beads and beading wire ahead of time and string beads prior to class. It's a surprising long process, and can easily eat up most of your class time which COULD be better spent learning! Contact the instructor (Tai) to arrange time to come in for a consult for your bead and wire choices. **All beads are on sale for the purposes of this class!**

Supplies Required

SoftTouch/SoftFlex .014
Beads, up to 5mm
Crimps

Tools used (tools marked with an *asterisk are regularly stocked in the student benches)

Metal crochet hook 1.3-1.5
Flex wire cutter
*Chain nose pliers
Beading matt/tray
Magnification

Notes on tools/supplies

This list is designed to help you determine what to bring from home. Please DO NOT buy anything before class if you don't already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don't stress about what you don't.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
