

Veberod Gem Gallery

Flush Setting

Flush Setting is an advanced stone setting technique that allows you to set stones directly INTO metal, flush with the surface. This is a wonderful way to add accent stones into pieces, or create easy-to-wear rings.

Flush setting requires exceptionally fine control with a flexshaft, and intense magnification. Please talk to instructor BEFORE class to discuss preparation. You must also provide your own ring (if interested, you can make this ring in Lost Wax Casting class).

Being able to see clearly is **essential** to your success, so bring any portable lighting and magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Prerequisite: Tube setting and PRACTICE

Please plan to provide all your own consumables. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring any portable lighting and magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Supplies Required

Heavy Silver Ring, min 2mm thick
Stones to set, up to 3mm

Tools used (tools marked with an *asterisk are regularly stocked in the student benches)

Drill bit, #67 to #55
*Center punch
Bud bur
Setting bur
Hart bur
Round bur
*Bur lube
*Small burnisher
*Ring clamp
Magnification
3M Polishing Paper

Notes on tools/supplies

This list is designed to help you determine what to bring from home. Please DO NOT buy anything before class if you don't already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don't stress about what you don't.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
