

# Veberod Gem Gallery

## Stone Tongue Pendant

Tongues are a different shape of cabochon and working with them can be a little different from the “normal” shape we are used to seeing in cabs.

We will discuss design considerations including setting options and how to work with differently shaped tongues.

Skills used will include designing, soldering, filing, pick soldering, finishing, setting and more.

Please plan to provide all your own consumables. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring any portable lighting and magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Prerequisite: Silversmithing III

### Supplies Required

Sterling Silver Sheet, 20 or 22  
Bezel wire or sheet to make bezel  
Optional- metal for accents  
Hard, Medium and Easy Solder  
Wire for bail (optional)

### Tools used

Torch  
Jeweler’s saw  
Saw blades  
Solder cutting Pliers  
Solder Pick  
Soldering surface  
Soldering tweezers  
Insulated cross-lock tweezers  
Files  
Magnification  
Miter Cutting Jig

### Notes on tools/supplies

This list is designed to help you determine what to bring from home. Not everything is required, and we **STRONGLY** recommend not buying anything before class if you don’t already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don’t stress about what you don’t.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
