

Veberod Gem Gallery

Twisted Wirewrap Pendant

This style of wire wrapping is not only attractive, but very versatile. You will be able to use it to turn cabochons, crystals, tumbled stones, rough specimens or even shells into pendants or charms. It is fairly simple to learn, but does require practice. This class is an excellent way to get experience before taking the more advanced wire wrapping classes - square wire ring or square wire pendant. You should be able to finish 1-3 projects to wear home!

Prerequisite: Beginning Wirework

Please plan to provide all your own consumables. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring any portable lighting and magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Supplies Required

Stones to wrap
22 ga round wire – copper, silver, or gold-filled

Tools used (tools marked with an *asterisk are regularly stocked in the student benches)

- *Chain Nose Pliers
- *Round Nose Pliers
- Flat Nose Pliers (or 2 Chain Nose)
- *Flush Cutters
- Ruler with metric measurements
- Ultra Fine Sharpie
- Bench Knife
- Dowel Assortment
- Files
- Magnification
- 3M Polishing Paper

Notes on tools/supplies

This list is designed to help you determine what to bring from home. Please DO NOT buy anything before class if you don't already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don't stress about what you don't.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
