

Veberod Gem Gallery

Fused and Woven Bracelet

This is a type of “link in link” chain making technique- the simplest one, actually. This gives you the look of a woven chain and is created with a series of fused fine silver links. Once the chain is assembled, it is pulled through a wooden draw plate to even everything out and increase flexibility. This chain makes a lovely necklace OR bracelet.

Prerequisite: Silversmithing 2

Please plan to provide all your own consumables, including solder and torch fuel. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring any portable lighting and magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

Supplies Required

Fine Silver Wire 20 ga, ½ Oz
7/16” dowel
Clasp
Large Jumpring
Med Jumpring
Torch Fuel

Tools used

Center Punch
Torch
Flux free soldering surface
Wooden Draw Plate
Magnification
Portable Ott Light

Notes on tools/supplies

This list is designed to help you determine what to bring from home. Not everything is required, and we **STRONGLY** recommend not buying anything before class if you don’t already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don’t stress about what you don’t.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
